REMARKS

Applicant respectfully requests a six-month suspension of prosecution of the above application.

This application copied Claims 1, 7, 8 and 9 from U.S. Patent No. 6,347,885 (hereinafter, "the '885 patent") for the purposes of provoking an interference. The '885 patent is currently being reexamined under serial no. 90/007,204 (hereinafter, "the '204 reexamination application"). The Office Action of February 7, 2006 in the '204 reexamination application rejects Claims 1 and 7 under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,713,669 (hereinafter, "the Thomas reference"). As of the date of this Request, no response to this Office Action is available on PAIR.

In summary, the present application has copied claims. However, the original claims (in the '885 patent) have been rejected in reexamination and may be subject to amendment or cancellation. It is respectfully submitted that this constitutes a showing of a good and sufficient cause for suspension of the action under Rule 103(a)(1).

The fee under Rules 17(g) and 103(a)(2) is enclosed.

Further, an RCE is being filed herewith, within the shortened statutory period of the final Office Action of March 3, 2006, so that no Office Action is considered to be outstanding in the present application. Additionally, an IDS is being filed to cite the '204 reexamination application and art cited therein.

A six-month suspension of prosecution is therefore respectfully requested.

Respectfully submitted,
